DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3 – 13, 15 – 26, 28 – 39 drawn to a method for pathfinding or routing, classified in class 370, subclass 351.
 - II. Claims 2, 14, 27, drawn to a method for assigning period of time for information to be transmitted (e.g. scheduling), classified in class 370, subclass 395.4.
 - III. Claims 40 – 42, drawn to least cost or minimum delay routing, classified in class 370, subclass 238.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method for pathfinding or routing; Invention II has separate utility such as a method for assigning period of time for information to be transmitted (e.g. scheduling/estimating), invention III has separate utility such as a least cost or minimum delay routing. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I, II is not required for Group III, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (1).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew C. Lee whose telephone number is (571)272-3131. The examiner can normally be reached on Monday through Friday from 8:30am - 5:00pm.
